PROFESSIONAL SUMMARY

Electronics & Communications Engineering graduate with 4+ years bridging enterprise IT infrastructure and backend SaaS development. Sole backend engineer across Medical and Finance SaaS platforms at EVO Smart Control while maintaining 98% SLA compliance for 100+ enterprise users at Bayanat Smart Systems. GRA-accredited in Vehicle Tracking. Bilingual: Arabic (Native) · English (Proficient).

EXPERIENCE

- Senior Technical Support Engineer [[↑] Promoted]

May 2026 – Present

Bayanat Smart Systems · Ras Al Khaimah, UAE

 - Promoted to Senior TSE with expanded oversight across enterprise infrastructure, IoT integrations, and UAT leadership.
 - Integrated Teltonika GPS trackers and ZKTeco biometric devices into customer backend profiles for real-time fleet and access control.
 - Built Excel/VBA automation tools cutting manual sales reporting time by 40%.
 - Tier 2/3 support for Windows/Linux, Active Directory, SCCM, JAMF — 98% SLA across 100+ users.
 - Led UAT cycles with 100% client sign-off rate before production releases.
- Backend Engineer (Part-time)

Nov 2025 – Present

EVO Smart Control · UAE

 - Sole backend engineer — designed Medical SaaS from scratch: 3-tier RBAC, audit middleware, real-time SSE notifications.
 - Engineered Finance SaaS: double-entry accounting, idempotent payment APIs, payroll & employee lifecycle.
 - Delivered MVP with 15+ RESTful APIs in 2 weeks; full deployment on AWS EC2, Docker, Cloudflare WAF (OWASP Top 10).
 - Building NestJS/TypeScript 'benaa' backend on AWS EC2 with Docker and repeatable CI-friendly workflow.
- Technical Support Engineer

Mar 2025 – May 2026

Bayanat Smart Systems · Ras Al Khaimah, UAE

 - Reduced system downtime by 30% through proactive root-cause analysis and preventive maintenance.
 - Designed and deployed internal Sales Workflow Web App with access controls and automated reporting.
- Backend Engineer (Remote)

Feb 2024 – Aug 2024

Smart Serve · Jordan

 - Designed scalable REST APIs with Node.js/Express, Sequelize ORM, and MySQL on AWS EC2 and DigitalOcean.
- Technical Support Engineer

Nov 2020 – Jan 2025

Telecom Egypt · Alexandria, Egypt

 - 200+ fiber-optic ONT installations with static IP provisioning; 85% first-call resolution on networking issues.
 - Managed parts inventory at 99% accuracy; reduced average ticket resolution time by 25%.

TECHNICAL SKILLS

Backend Development	Node.js, NestJS, Express.js, TypeScript, REST APIs, JWT, SSE, Socket.io, BullMQ, Sequelize ORM, PHP
Databases & Caching	MySQL, MongoDB, Redis, Supabase · Multi-tenant schema design, N+1 query optimisation
Cloud & DevOps	AWS EC2/S3/IAM, Docker, PM2, Cloudflare WAF/SSL, DigitalOcean, Render, cPanel, n8n
Moodle & LMS	Moodle Admin & Deployment, PHP Plugin Development, Boost Theme Customisation, REST API & SSO Integration

IT Operations & IoT	Windows/Linux Admin, Active Directory, SCCM, JAMF, IVANTI, Teltonika GPS, ZKTeco Biometrics, Excel/VBA
Networking & Security	CCNA-level Networking, Fiber Optic / ONT Config, Router/Switch Setup, OWASP Top 10, RBAC, Audit Logging

KEY PROJECTS

EvoSmart Medical SaaS gomedical.evosmart.co	Production REST API: patient lifecycle, scheduling, billing, SSE notifications. 3-tier RBAC, audit logging, Docker + Cloudflare WAF.	NestJS · TypeScript · MySQL · Sequelize · SSE · Docker · Cloudflare
EvoSmart Finance SaaS finance.evosmart.co	Multi-tenant accounting: double-entry ledger, idempotent payments, payroll, payslips, fixed asset lifecycle. MVP in 2 weeks.	Node.js · Express · MySQL · JWT · Docker
Moodle LMS Platform	Full-cycle Moodle: server admin, custom PHP plugins, Boost theme development, REST API & SSO integration.	Moodle · PHP · SSO · REST API
Fatema Center fatema-center.com	Clinical backend: 3-tier RBAC, 15+ condition flags, session lifecycle (scheduled→in-progress→completed), Multer document uploads.	Node.js · Express · MySQL · Multer
n8n Telegram Automation	Bank SMS parser bot: smart account inference + Supabase pipeline for structured transaction tracking.	n8n · Telegram · Supabase
Sales Workflow App	Internal tool for Bayanat: lead tracking, dashboards, Excel/VBA automation saving 40% reporting time.	Node.js · Express · Excel/VBA

KEY ACHIEVEMENTS

Promoted May 2026	Senior TSE with expanded oversight at Bayanat Smart Systems	85% first-call resolution	Advanced networking troubleshooting at Telecom Egypt
30% less downtime	Proactive root-cause analysis and preventive maintenance	15+ APIs in 2 weeks	Full MVP backend delivery at EVO Smart Control
40% faster reporting	Custom Excel/VBA automation tools for sales team	200+ fiber installations	ONT & static IP deployments across Egypt
98% SLA compliance	Tier 2/3 support for 100+ enterprise users	GRA Accredited	UAE Vehicle Tracking — General Regulatory Authority

EDUCATION & CERTIFICATIONS

B.Sc. Electronics & Communications Engineering	Alexandria Institute of Engineering & Technology (AIET)	2020
Vehicle Tracking Accreditation	UAE General Regulatory Authority (GRA)	Active
CCNA-Level Networking	Cisco Curriculum	—
